# Pop Up Displays

## Kit Includes

2 x 150w clip on spotlights with cable and plug

Magnetic Bar

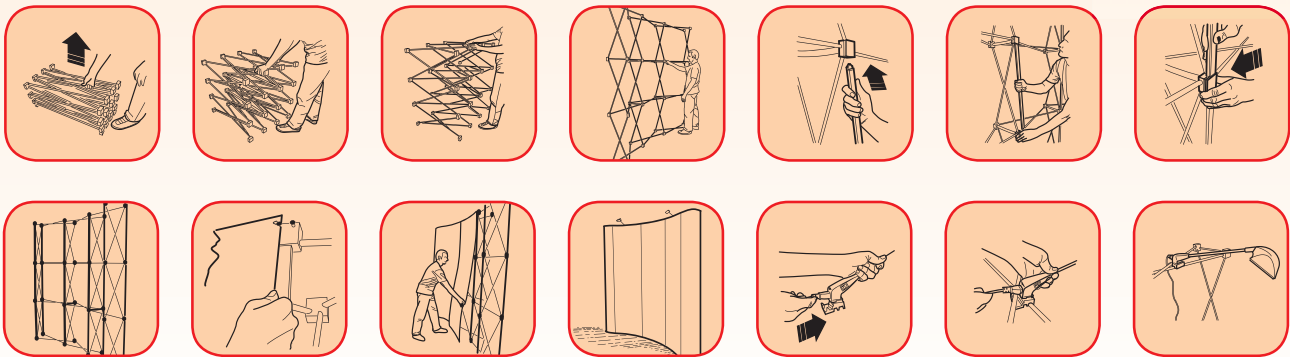

Aluminium collapsible frame with black moulded fittings

Semi rigid wheeled trolley case plus instructions

Today the Pop Up is seen as a standard for large image walls at events and presentations. Few loose parts in combination with an easy and solid construction, gives you great attention.

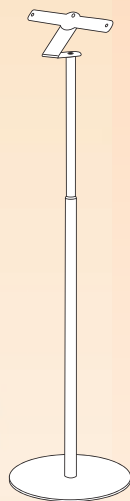

Presentation & Exhibition

# Presentation Displays

## Swift

Swift is a freestanding floor display with telescopic bar and round base. A dust proof and elegant presentation of single sheet information without a visible frame. Exchange anytime by opening or taking away the front cover. The clever design allows quick rotation from horizontal to vertical.

## Fixtable

Fixtable acts as both a portable brochure stand and a table. It's a real eye catcher with a silver metallic varnished top with space for two Din A4 brochures beneath. Fixtable is the best portable table in the field and is ideal for exhibitions or product launches or as a permanent presentation in your showroom.

# Roll Up Displays

Increase the visibility of your business. Lets you stand out from the crowd with great vision impact with an easy and solid construction.

## SD1000 Roll Up:

- Available in 1 size 850 x 2150mm
- Top Profile Snap Closing
- Bottom Profile / Self Adhesive Strip
- Sturdy Design / Modern Appearance
- Comes with Carry Case

## SD4000 Roll Up:

- Available in 1 size (850x2150mm)
- Top + Bottom Snap closing profiles allows graphic to be interchanged
- Sturdy Design, extruded aluminium case
- Comes with Carry Case

Presentation & Exhibition

# Brochure Displays

## Show Zip

It's Showtime. We understand that literature and brochures are as unique as the businesses they promote. So why wouldn't you want your literature displays to reflect the same originality? You can do more than just present your company's profile and products - you can add to the unique style of your company. Three Brochure pockets made of UV and shock resistant polycarbonate die-cast, unfolding easily to a brochure rack. .

## Flagflash

With its angled shelves and eye catching modern style, this brochure stand is sure to attract attention to your literature on display. Flagflash presents freestanding trays for six A4 brochures and your 500mm prints with the banner block extrusion.

# Modern Information Presentations

## Presentation & Exhibition

### Magic Zip

Simply Magic: A versatile information display system, just hook the different elements of the magic zip assortment to the basic structure made of silver anodised aluminium with vertical and horizontal notches. According to your idea and requirements you can easily create magazine or brochure racks and freestanding individual POP display.

### Real Zip

A Real and genuine original. This is the perfect display for exhibitions or showrooms, it is designed for daily use under tough conditions with four polycarbonate brochure pockets and the ergonomically curved aluminium side braces guarantee easy access to the printed material.

Customisable Graphic Here ▶

### Velo

Clear lines and a lot of free space, that's what Velo will give to you. Velo is the all in one display for shop, office, exhibition and showroom. The two piece base structure is mounted in no time.

# Multimedia in your presentation

## Velo Media

Make your presentation multimedia-based with the integrated 7" LCD screen. The digital media frame with built-in speaker shows commercials, short films or digital photos. Load your files on a memory card and there you go. Below the screen Velo Media has a brochure tray for A4 printed material.

### Velo Media includes:

- LCD 7" digital media frame
- silver anodized aluminium panel
- MDF silver coated base

## Zip Media

It's Showtime: with zip media you are mobile and multi-functionally equipped as well. With a built in 7" LCD screen, 3 shock resistant polycarbonate die-cast brochure trays fold up to a stable rack for both print and audiovisual media. At exhibitions, for POS, in your showroom or at events; you will certainly attract the attention of customers and interested people with your audio-visual presentation. The relevant brochures for distribution are placed directly under the screen.

### Zip Media includes:

- LCD 7" digital media frame
- silver anodised aluminium panel
- 3 brochure pockets for DIN A4 format made of shock-resistant polycarbonate
- 1 poster pocket A4 pixquick for your customisable prints
- MDF silver coated base

◀ Customisable Graphic Here

# Rondo & Stop Info

## Stop Info

Stop Info is set up in no time: just mount the extrusion on the base and then screw on the poster pocket. Thanks to the magnetic locking, the exchange of information can easily be changed at anytime. Sleek construction, just the thing to stop anyone in their tracks.

Poster option: 700x500mm

## Rondo

Gain publicity space with the rondo tables: the modular base can be customised with a print inlay under the glass inset. The table top itself becomes an additional advertising space with a print put under the tempered glass.

Presentation & Exhibition

# Presto

Silver

Black

Endcaps

Presto panel display is really great, together with your display panel Presto becomes a Sign Post, an Advertising Board, a Partition or a Decorative Element in interior or exterior areas. The anodised aluminium profile can be combined with panels made of wood, metal, glass, any materials from 1mm – 30mm are shut safely by presto. You can open and close the system easily for quick change of display; integrated rubber laces protect your panel and act as an anti-slip device also. Presto makes room for your creativity.

# Out-door Banner Stand

## Outer

Looking for a stable outdoor banner display? Then Outer is the right choice. Fill the plastic base with water or sand and your Outer will stand firm and secure. Thanks to its special design, Outer is suitable for banners with variable width and height. A telescopic pole and the flexible banner bars render this flexibility possible. Setting up is easy as the banner bars are already connected to the pole.

Made of plastic and aluminium, Outer is lightweight. After the job just empty the base and store all parts in the transport bag provided.
